linkedin.com/in/kulveercode

A passionate individual having proficiency in Frontend development seeking an entry level position in a reputed organization, where I can utilize my skills and grow further into the world of web development.

## WORK EXPERIENCE

### ○ Cadd Engineer Hark Industries

08/2020 - 05/2023

Lalpur, Uttarakhand

- Developed product patterns to meet client requirements. Assisted team with multiple phases of projects, ranging from brainstorming to implementation.
- Managed team in the absence of team lead, delegated tasks, and monitored progress. Ensured product accuracy after research and development by making necessary changes.
- Streamlined processes to improve efficiency and reduce production costs. Implemented new ideas to improve product design and performance.

## PERSONAL PROJECTS

### Ecommerce Website (03/2023 - 04/2023)

- Developed a website utilizing React JS with features including Login/Sign Up and basic features of MERN. • Leveraged React JS to create an efficient and user friendly website. • Optimized web experience for customers with seamless navigation and login/sign up options.

### Online Food Order Website (02/2023 - 02/2023)

- Designed a responsive website utilizing HTML, CSS, and Javascript to ensure compatibility across all devices. • Developed the front-end of the website, creating a compelling design and user experience. • Tested the website to ensure responsiveness and optimal functionality.

### Age Calculator (01/2023 - 01/2023)

- Developed an age calculator using HTML, CSS, and JavaScript. • Optimized performance for a sleek user interface. • Leveraged JavaScript functions to generate an accurate age calculation. • Crafted an interactive user experience with a clean design aesthetic.
